

Welcome to CaseyLifeSkills.org (the "Website"). This Privacy Policy is designed to assist you in understanding how Casey Family Programs ("Casey", "we", "us", or "our") treats the information provided by you or collected from your use of the Website. We may change this Privacy Policy from time to time, in which case, the revised Privacy Policy will be applicable from the date posted on the Website.

What Information Do We Collect?

We collect, process, and retain, information you voluntarily provide, as well as collect information from and any devices you use to interact with the Website, in different ways:

1. Personal Information You Choose to Provide

Account Information. When you register for this Website you provide personally identifiable information (PII) about yourself, such as name, email address, and a unique identifier you choose.

Assessments. When you register for and take an assessment for yourself or a youth, you provide us PII about yourself or the youth who is being assessed. This PII includes name, date of birth, email, and race/ethnicity of the person being assessed. In addition, the site records responses to questions asked during the assessment.

Email Information. If you communicate with us through the email address provided on the Website, Casey may retain the content of any of your electronic messages, together with your contact information.

2. Information We Collect Automatically

Website Use Information. When you visit the Website, the IP addresses used to access the site are recorded. Similar to other websites, CaseyLifeSkills.org utilizes a standard technology called "cookies" in order to use the website. If you have chosen to identify yourself to us, we may place on your browser a cookie that allows us to uniquely identify you when you are logged into the website and to process your online requests. When visiting the Website, logs are generated that may include the date and time of visits, the pages viewed, time spent at the Website, and the websites visited just before and just after our Website. This information may be used to understand how the Website is being used and to troubleshoot technical issues.

What Are Cookies? A cookie is a very small text document or file, which often includes an anonymous unique identifier. When a user visits a website, that website's technology asks the user's computer for permission to store this file in a part of the user's hard drive specifically designated for cookies. Each website can send its own cookie to the user's browser if the user's browser's preferences allow it, but (to protect the user's privacy) the user's browser only permits a Website to access the cookies it has already sent to you, not the cookies sent to you by other sites.
